

# Recover U Ozone Therapy Kit – Contents & Customer Support Access

Each Recover U Ozone Therapy Kit is delivered as a fully integrated system. The components listed below are included to allow users to begin ozone applications with a properly configured setup.

Included Component	Description
Ozone Generator	Oxygen-enriched ozone generator unit (EU Edition)
Ozone Destructor	Device designed to neutralize residual ozone after use
Oxygen Regulator	Regulator for connection to oxygen tank or concentrator
Ozone-Resistant Tubing	Medical-grade tubing and connectors
Glass Flask + Diffuser	Glass container with diffuser stone for ozone bubbling
Insufflation Bags	Reusable ozone-resistant bags
Insufflation Catheters	Catheters for controlled applications
Ear Applicator	Accessory for ear insufflation applications
Medical Syringe	Syringe for precise dosing and transfer
Connector Set	Luer-lock fittings and connectors
User Documentation	Quick start instructions and system guidance

**Customer Support & Learning Portal** With the purchase of a Recover U Ozone Therapy Kit, customers receive an invitation to the Recover U Customer Support Portal. This private customer-only area provides access to:

- Detailed setup instructions
- Educational materials about ozone systems
- Professional wellness protocols
- Safety guidance and best practices
- Updates and additional resources
- Optional consultation and support from the Recover U team

The portal is available exclusively to verified Recover U customers.

**Note:** An oxygen source (oxygen concentrator or oxygen cylinder) is required for operation and is not included with the kit.
